"After a violent bombardment late yesterday on the Chemin des Dames, the Germans attacked our positions over a long front in the region northwest of Braye-en-Laonnois, between Bovetle and Epine de Chevregny. Our curtain fire and our machine guns broke up the attack. The Germans were not able to approach our lines except at one point, where the enemy gained a footing in one of our advanced trenches south west of Filain.

"Surprise atacks against trench posts north of Craonne, east of Hill 108 and northeast of Auberive were defeated by our fire. We took prisoners, of whom one is an officer.

"In the Weevre and Lorraine French detachments penetrated the German lines at several points and brought back prisoners."

and brought back prisoners."

BERLIN, May 15 (via London).—
The following statement was issued to-day by the War Office:

"Army Group of the German Crown Prince.—At various places on the Alsne and Champagne fronts the artillery duel again increased until it attained a degree of considerable intensity at times about the positions on the high ground of the Chemin des Dames, east of Cormicy and north of Prosnes. The Ste. Berthe Farm, east of Fort de Malmaison, was captured by storm.

"On Sunday Rhenish troops also retained against four attacks the newly captured line on Hill 108, north of Sapigneul, which has been won by pressing back the French. Near Ailles, north of Craonnelle and west of the Corbeny-Berry-au-Bac Road, partial French attacks were made without success.

"East of the Meuse attacks by enemy thrusting detachments against the Village of Blancheo were repulsed.
"In aerial fighting six enemy airplanes fell behind the German tines, Another made a forced

anding.

"ARMY GROUP OF CROWN
PRINCE RUPPRECHT.— Between Ypres and Armentieres the
spirited artillery fighting continued. There was a preparatory
drumfire of short duration on the
scarpe and near Monchy. British scarpe and near Monchy. British attacks had been prepared, but could not be developed under our annihilating fire. South and cast

of Bullecourt enemy advances were sanguinarily repulsed." The report from the Macedonian front said that north of Monastir and in the Cerra Bend the artil-lery duel is again increasing.

Plaus to Raise Funds.

BUSY, SAYS SAILOR

Declares Germany Has 39 Submarines That Can Catch Fastest Cargo Ships.

AMSTERDAM, May 15,-The Germans have about 225 submarines in operation and about 80 to 100 have been lost through British nets alone, according to the Telegraaf, which prints an interview with a member of the crew of the submarine U 68. This is the submarine which sank the Dutch grain ship fleet in February.

The U 58 is commanded by Capt. Count von Platrau. According to the interview, the aubmarine discharged three or four torpedoes against the Dutch ships and then zig-zagged between them, sinking them with bombs and shell fire.

When at sea the submarines assemble at a given point every morning and receive wireless instructions, presumably from Heligoland. There are about thirty-nine U boats of the newest type, each carrying a crew of fifty-six men, and this fleet is supplemented by a secondary squadron marked with a "C."

The first class boats have a speed calculated as sufficient to overtake any cargo bent. Two-thirds of their crews are experienced and one-third novices. The boats carry a fortnight stores and have a maximum period of submergence of from eight to ten hours. Each is equipped with two periscopes, and sometimes descends to from thirty to fifty metres.

U Best Captain Knew All About

Spanish Ships.

BARCELONA, May 15.—The Spanish steamer Carmen, which was sunk by a German submarine on Thursday, was bound for Crite with a cargo of wine and figs. When the captain took his papers on board the submarine the commander of the ple. The radical newspaper Retch latter asked him if he was carrying goods to France. He was told no. that the goods was consigned to E witzerland. He replied:

DECLARE NEW TAX MEASURE IS

MENACE TO BUSINESS.

There was no optimism either in the statements made before the Senate Finance Committee by business men of the country that economic conditions are being seriously menaced by the new taxes imposed in the revenue bill.

Following the protests made yesterday by newspaper and periodical

publishers that the system proposed would tend to destroy business and render it unable to meet the demands, representatives of other industries appeared to-day before the committee, echoing the same sentiment, Attacks also were made by members of the Lower House in the course of continued debate upon the same bill, challenging the soundness of its prin-

ciples of taxation, The main trend of the arguments made all around was that the revenue bill must be rewritten so that taxes on the doing of business may be reduced or wiped out, while income taxes and excess profit taxes should be increased to make up the required revenue.

The climay of this contention was reached in the assertion of newspaper publishers that the Government could take all their profits if required, but must not penalize them with increased costs in the conduct of business, which would bring reterenchment and ruin to enterprises. Two homely phrases were used yesterday

to express this view: "You can have all the milk, but don't kill the cow."

"Take all the fruit in the orchard, but don't chop down the trees."

Another apt expression was added in the Finance Committee hearing: "You won't be able to get taxes next year out of a corpse." Chairman Newlands of the Senate

Interstate Commerce Committee is working on an Administration bill to empower the President to compel railroads to give preference to food railroads to give preference to food shipments.
Frank P. Glass said the Birmingham, Afr., papers had to raise their prices 25 per cent, and yet were suffering. He said there was gossip current to the effect that the tax was a plan to punish the newspapers. Senator Williams interrupted to say there seemed to be the opinion that the Postmaster General was responsible for the tax, but that such was

sible for the tax, but that such was not the case.

Debate on the bill drew to a close in the House to-day. Offering of amend-ments under the five minute rule is the next singe and leaders hope that a vote may be reached by the end of the

Determined efforts will be made to mend the bill to lower the excess ofits, income and automobile tax chedules, and the proposed increased

postal rates on second class mail.
C. E. Kelsey, representing the Youth's Companion, said that the pubication paid the Government last year \$29,000 for postage, but under the new rate it would pay \$154,000, while paper would cost it \$4,500 more. Louis Wiley of the New York Times

Louis Wiley of the New York Times said it has been shown to the committee that none of the newspaper's desire to shirk their responsibility to the Government. Postago tax and paper together, he said, would cost the Times \$1,400,000 more than formerly. The tax, he declared, was an oppression in view of other increased expenses. George McAneny, also of the Times, declared the tax confiscatory. He said the Canadian Government had lowered the price of paper.

nt had lowered the price of pape The example of the Canadian Gov. nment can be fairly suggested to e Congress as an example," he said. is it not fair to ask why the pub shing industry has been singled ut?" he asked. "We of the publish-ing business ask nothing more than to be treated fairly."

to line with the intimation from Lamar that he had subpoensed well known public persons in his defense against the charges of conspiracy brought by the Government.

The following telegram was received from Josephus Daniels, Secretary of the Navy, who had been subpoensed by Lamar:

"I know nothing whatever about the case, and I trust it will not be necessary for me to appear. Matters of of-sary for me to appear, Matters of of-sary for me to appear, Matters of of-sary for made over the system of the secretary of the secretary for made over the system of the secretary of the secretary of the supervision and binding case, and I trust it will not be necessary for made over the system of the secretary of the secretary of the supervision and binding case, and I trust it will not be necessary for made over the system of the secretary o
